BOOK BIO

Just when Tiffany mustered up the courage and strength to walk away from her first long term relationship, and begin a new life as a single mother of two young boys, her life was changed in an instant. One fateful night she found herself face to face with the barrel of a gun and when the trigger was pulled she fell to rock bottom - homeless, heartbroken, and trying to find hope while healing from years of wounds that were now being exposed on the 11 o'clock news.

30 Day Stay is a story about one woman, but it is also a story about any of us who find ourselves in situations that require us to reinvent ourselves from the ground up while everyone is watching. This incredibly intimate and breathtaking memoir reveals how the shame associated with societies stigmas and the facades we maintain to appear like we have it together alienate us from our true selves and others, and captures the beautiful truths that are revealed as we courageously commit to reinventing ourselves in spite of it all.

I didn't get to pick my alias. I mean, most people who use or earn an alias come up with some pretty catchy names, or earn the right to be called by a name to remember. The name assigned to me was not very catchy, or creative; nevertheless, it was memorable for me because it represented so much. The odd thing is, up until the time it was assigned to me, I hadn't fully accepted my "other" identity.

It was all good just a week ago. No, two weeks ago. I had a permanent address. I didn't have crutches, and I had no fear of one of my legs being shorter than the other.

My time in The Place feels like a lifetime ago. Reflecting on my time there leads me back through a cycle of half-conscious and half-unconscious attempts at eating and spending my way to fulfillment.

THIS is where it ends.

THIS is where I break the cycle.

THIS is what was different about our encounter.

THIS is the book.

Everything started moving in slow motion. I was naked, sweating heavily, and I am not a sweater. Then it happened, my life began to flash before my eyes.

I'm going to die.

The exposure was not ideal. I was on the 11 o'clock news, and shortly thereafter I was homeless.

Qow, Wow, Wow!! This book... An absolute page turner, I finished reading in less than 5 hours!! Very transparent and an excellent testimony!! I am anxiously awaiting the next installment.

Thanks Tiffany for being brave to share your story of overcoming the "war"... and peeling off all the layers to help others. I am sitting on the edge of my seat waiting for the next book!! T. Best

In less than 36 hours i read this book from COVER to COVER. i shed tears, cracked a smile, remembered when i was broken down, and encouraged myself to put the pieces together. To say this book js AMAZING is an UNDERSTATEMENT. if i didnt know this was her story i would be certain it was written about me. The language was POWERFUL the story was a REFLECTION of a scar so many of us try to cover and the author was GOD SENT. J. Hollis

I finished this book in FOUR hours, but my soul has been blessed for all my days. This story is relatable on so many levels and each word is filled with a tenderness, transparency, and urgency you cannot be untouched by. Kudos to Tiffany for the courage to share her story and help countless women discover their own purpose in this walk of life. S. Moye
